

FOREST BROOK

Staff Team

Our **Staff Leadership Team** is called to equip our church family for the work of the Kingdom both in our shared context at Forest Brook and in our Ajax neighbourhood and also where each one of us lives, works, goes to school and plays. Their role is to add form and function to the work that we feel called to as a church.

Our Staff Team is led by a Co-Leadership Team of Jim Chen and Lindsay Wadsworth. For the 2025-26 ministry year, they are being supported by Kevin Armstrong. Together, our co-leadership team seeks God's wisdom and lead for where we sense He is calling us to next and creates themes and trajectories for each season of the life of our church.

Because of our commitment to Shared Leadership, our staff team **collectively** leads and supports all our church's ministries and programs. They do this through individual functionality that is specific to each team member's role on the team, gifting and calling to ministry.
